

Bee Trained

Looking for a friendly outfit to provide you with affordable and professional training? *Look no further!*

Bee Trained caters for a wide range of needs with a range of courses available.

We make use of modern and varied teaching techniques with large screen projection and multimedia as a presentation medium.

And it makes no difference to us if we're training a group of professionals in a business environment, or a bunch of individuals for a voluntary organisation. We still work to the same high standard.

Some courses are informational based, giving good ideas and best practice, whilst others are accredited with certification after testing.

You'll find us friendly, yet professional, with a fresh approach in many aspects of our work together.

Feel free to contact us via any of the methods below.

You'll find us friendly and approachable, yet professional too!

If you have a requirement not detailed here, please give us a call. It's more than likely we can accommodate your request!

We're based in Ipswich, Suffolk, but more than willing to travel!

Media in Worship

Are you making the most of the resources available in today's world during your worship?

Scared of "new technology"?

Don't know where to start?

Well, this course is for you!

You'll learn how to make the best use of all types of media in worship from song projection using the basics, through to making use of video's, DVD's and other up to date resources.

We take you through the theory, including why we ought to make use of modern media, the nuts and bolts of a system; how to prepare and run your own multi-media event. We also cover legal aspects such as copyright.

We include a wealth of examples and even some "almost ready made" event material - all included on a Media in Worship resource data DVD (over 4GB worth of data, saving you the time and effort for searching for elusive material)!

You'll come away with a wealth of knowledge on best practice, the do's and

Heaven's perfect melody,
The Creator's symphony,
You are singing over me,
The Father's song

don'ts, as well as some cracking ideas on how to use media in worship! Included are the student course notes and handouts for you to take away with you, as well as other free handouts on a wide variety of related subjects, contacts, and useful information.

We even cover hardware, software and "jargon" used in this exciting area.

Course Content

We cover a lot of ground in a course that lasts from 10.00am to 5:00pm. Too much to do justice here in fact, but for a taster, we include:

Objectives, About this Course, Introduction Defining Worship and Media with new group-working techniques. Why use media in worship? How can we worship? What can we use? Learning and retention. Perception and content. Where to start. Theme plans, Event plans. Practical Exercises. Hardware and Software including; Laptop, PC, Projector, Audio Systems, PowerPoint Specialist Software, Windows Media Player, Windows Movie Maker,

CinemaForge Audacity, dbPowerAmp, Adober Acrobat, OpenOffice. Video and Audio Formats, Creative Considerations Slide formats and layout, backgrounds,, Using colours, pictures, video, bible readings, music, humour and activities. Animations and transitions. Copyright, Run-time tips and course implementation.

FREE resource Data DVD

We include a free resource data DVD crammed full of examples, free software, pictures, videos, songs already put to PowerPoint, as well as some "almost ready made" events!

... and more

We are also available to advise on requirements and installations of multi-media equipment in buildings that will ensure your money is spent wisely, and your investment is future-proof. Contact us for further details on this subject.
